

Majd Soubh

Back-End Developer with 2+ years of expertise in **PHP** and **Laravel**, delivering applications from concept to deployment. Skilled in **API development**, **query optimization** and **Vue.js** integration. Committed to high-quality code, best practices, and effective team collaboration.

WORK EXPERIENCE

SCASE LTD, Syria — C++ Developer

NOV 2023 - PRESENT

Subsidiary of Intenta GmbH, develops smart sensors and car driving assistants.

- **Refactoring 6+ key components, improving code efficiency by 30%**
- **Collaborating with multi-functional teams to optimize car localization algorithms, boosting availability by 25%** and ensuring continuous service for end-users.
- **Generating automated testing for 8 critical features**, resulting in improved feature stability

Freelancer, Remote — Fullstack Developer

JAN 2021 - NOV 2023

- **Launched custom web applications for 4+ clients, leveraging PHP, Laravel, and Vue.js to meet business objectives.**

PROJECTS

E-Store

Comprehensive online store application designed to support multiple product categories and ensure secure transactions.

Stack: PHP, Laravel, MySQL, Vue.js, Vuex, Tailwind CSS.

- **Implemented a responsive UI for smooth navigation** and checkout process.
- Integrated **a product management system** and created **Treeify**, a Laravel package for efficiently organizing hierarchical data and simplifying queries.
- **Empowered owners with interactive charts** to improve data understanding, and **utilized WebSockets to provide real-time updates on recent events.**
- **Performed secure payment processing** and user authentication to ensure safe transactions.
- **Deployed with Docker** for seamless, scalable deployment across environments.

Survey Time

Web application for creating surveys and sharing them with others to gather their responses.

Stack: PHP, Laravel, MySQL, Vue.js, Vuex, Tailwind CSS.

- **Designed an intuitive interface for easy survey creation and management, allowing customizable question types.**
- **Established live-updating dashboard**, ensuring users stay informed about new events.

ZIP URL

PHP-MVC project aimed at creating and managing short URLs, leveraging the Model-View-Controller (MVC) architectural pattern.

Stack: PHP, MySQL, Bootstrap.

- **Developed a robust routing system**, efficiently mapping incoming requests to controllers, enhancing navigation speed and improving URL handling.
- **Built authentication and authorization functionality** to restrict URL creation and management to authorized users.
- **Employing token-based CSRF protection** and **preventing session hijacking.**

SKILLS

Languages & Frameworks

PHP, Laravel, MySQL, JavaScript, Vue.js, Vuex, C++, REST API

Tools

Git, Bitbucket, PHPUnit, Docker

Practices

Agile, JIRA, OOP, Design Patterns, Problem Solving

Attributes

Quick-Learner, Teamwork, Diligence

EDUCATION

Tishreen University, Bachelor in Information Technology 

Latakia, Syria (2018 - 2023)

GPA: 80.65, Top 10% of my class.

Syria Virtual University, Master of Web Science (2023 – Present)

ACCOMPLISHMENTS

Successfully solved over 400 advanced coding challenges on platforms like **Codeforces** and **LeetCode**, covering diverse topics such as graph theory, dynamic programming, and others.

LANGUAGES

English B1, intermediate

German A1, beginner

Arabic native
